Chautauqua Opens Thursday
Beginning next Thursday afternoon the people of North Platte and tributary country will have a seven-day feast of intellectual up-to-it and entertainment, for on that day, and continuing for that length of time, the chautauqua will open. The talent this year is particularly strong, both as to the lecturers and the musical features, and the interest already taken is further increased by the announcement of the coming of William J. Bryan next Sunday evening. The addition of Mr. Bryan to the program was but lately made, and for his lecture no additional fee is charged the holders of season tickets, but for those who do not have season tickets a charge of fifty cents will be made for adults and twenty-five cents for children. Mr. Bryan will no doubt prove a drawing card. His subject is one in which the people of the United States are vitally interested in today, and that it will be well handled by this great orator, there is no doubt.

Mr. Bryan, however, is but one of several strong men who are on the program, Senator Gore and Opie Read will also be here, and in the musical line we are to have the great Thaviv band, an organization that has few peers.

With three sessions next Sunday and two sessions each of the other six days, the investment of \$2.50 in a season ticket, good for the seven days, is certainly one that almost every person can afford to make. It is almost as cheap as picture shows and will prove many times more beneficial.

Bescher delivered a short address, after which refreshments were served. A very pleasant session was reported by those present.

SECURES BIG ATTRACTION FOR FALL FESTIVAL
Elmer Coates returned Sunday from Omaha where he had gone several days before to see what arrangements he could make in regard to securing an aviator for the fall festival. His success was greater than he really anticipated, for he secured an attraction for September 1st and 2nd that far surpasses any mere aviation flight.

He made arrangements with Capt. C. W. Shafer, chief of the aviation corps of the Nebraska National Guards to bring to this city on the above dates not only three aeroplanes, but also sixteen or eighteen men, a number of tents and other military accessories. A section of the fair grounds will be converted into an armed or fortified camp or city, and the aeroplanes will make a practical demonstration of how the fliers make their attack on fortified positions.

These exhibitions are being made under the direction of the aviation corps of the United States army, and part of the future equipment of the national guard of each state will be a corps of aviators.

Capt. Shafer and his men will make demonstrations on the state fair grounds following their appearance in North Platte.
